Temperature Variation over East Asia during the Lifecycle of Weak Stratospheric Polar Vortex, Sung-Ho Woo; Baek-Min Kim; Jong-Seong Kug; Yeonji Gong  APEC Climate Center; Korea Polar Research Institute; Pohang University of Science and Technology; Korea Meteorological Administration

Extreme Rainfall over Yangtze River-Huaihe River Valleys in Summer and Its Association with the East Asia Westerly Jet, Qingyun Zhang, Institute of Atmospheric Physics, Chinese Academy of Sciences

Comparison of warm season North American precipitation variability observations to CFSv2, Kirstin Harnos and Scott Weaver, NOAA/NWS/NCEP/CPC

Improving the land-surface components of the Climate Forecast System Reanalysis (CFSR), Jesse Meng, NCEP/EMC/IMSG

Seasonal and spatial dependence of soil moisture memory over North America, Matt Newman, Yan Wang (presenting), and Ben Livneh, CIRES, U. of Colorado and NOAA/ESRL/PSD

Relationship between the Asian westerly jet and summer rainfall over Central Asia and northern China: the roles of the Indian summer monsoon and the South Asian high, Wei Wei, Department of Atmospheric Sciences, Sun Yat-sen University

Identification and Proxy Development of Shortwave Influences on Sub-Seasonal Precipitation in CFSv2, Martin Schroeder, Utah State University

Anomalies of onset date of the first rainy season in South China and its relationship with variation of the atmospheric circulation and SST, Wu Hongyu, Climate Center of Guangdong Province

NOAA’s Facility for Climate Assessments (FACTS): A Web-based Resource for Assessing Drought and Climate Variability, Don Murray, NOAA/ESRL/PSD and CU/CIRES

Synthesis and Integration: Challenges towards Next Generation Operational CFS, Jiayu Zhou, Jin Huang, Annarita Mariotti, Dan Barrie, Jim Kinter, Arun Kumar, OSTI/NWS/NOAA, NOAA CTB, CPO/OAR/NOAA, COLA and GMU, CPC/NCEP/NWS/NOAA

Changes and Influences of Convective Heating over the South China Sea and the Philippine Sea during Boreal Spring under the Background of Global Warming, Zhenning Li, Song Yang, and Bian He, Sun Yat-sen University, Guangzhou, China

Feedback Attributions to Regional Climate Changes during Global Warming Hiatus, Xiaoming Hu, Yana Li, Song Yang, Sun Yat-sen University, Guangzhou, China
Mean state and interannual variability of the Indian summer monsoon simulation by NCEP CFSv2, Ravi P Shukla and Bohua Huang, Center for Ocean-Land-Atmosphere Studies/George Mason University

CLIMATE CHANGE: state of climate change and future scenarios in Guinea, Diallo Ahmadou Aliou, National Directorate of Meteorology

Climatological heat budget of the equatorial Pacific upper ocean in the GFDL FLOR global coupled GCM, Sulagna Ray and Andrew T. Wittenberg, NOAA/GFDL

Impact of the large-scale circulation on extreme precipitation events in the Mediterranean region, Monika Barcikowska and Sarah Kapnick, NOAA/GFDL, Princeton University

Simulation of Indian summer monsoon using the Japan Meteorological Agency’s seasonal ensemble prediction system, Kailas Sonawane, India Meteorological Department

An analysis of predictability of seasonal atmospheric variability using NNME models, Bhaskar Jha and Arun Kumar, CPC, NCEP/NOAA, College Park, Maryland

Characteristics of hydro-climatic variables in Nigeria during episodes of sea surface temperature anomalies in the Gulf of Guinea, Sholademi Mutiat, Nigeran Meteorological Agency

Development of High Spatial Resolution Rainfall Climatology for Ghana, Aryee Jeffrey and Amekudzi K. Leonard Kwame Nkumah, University of Science and Technology

Impact Of Sea Surface Temperature On West African Rainfall: Case Study Of Coastal Zone Of Ghana, Michael Baidu, Leonard K. Amekudzi And Jeffrey Arye, Meteorology and Climate Science Unit, Kwame Nkrumah University of Science and Technology, Kumasi- Ghana

Variabilities in Rainfall Onset, Cessation and Length of Rainy Season for the Various Agro-Ecological Zones of Ghana, Leonard K. Amekudzi, Edmund I. Yamba, Kwasi Preko, Ernest O. Asare, Jeffrey Aryee, Michael Baidu and Samuel N. A. Codjoe, Meteorology and Climate Science Unit, Kwame Nkrumah University of Science and Technology, Kumasi- Ghana

Categorizing prediction skill of monsoon intraseasonal oscillation according to the amplitude of underlying SST anomalies, Wanqiu Wang, Meng-Pai Hung, Arun Kumar, NOAA/NWS/NCEP/CPC

Effects of Atmospheric Conditions on the Development of the Weak 2014 El Niño, Yehui Chang and Siegfried D. Schubert, GMAO, NASA/GSFC
